

GMA 16

3460A HWY 281

George West, TX 78022

April 14, 2021

Board, I am enclosing the relevant statutes and the Desired Future Condition that we approved at the last meeting.

Either, email or mail to Andy Garza a letter after the 90 day comment period, with any comments received. If no comments are received, then send a letter accordingly.

Sincerely,

Lonnie Stewart

36.108(d-2) The desired future conditions proposed under Subsection (d) must provide a balance between the highest practicable level of groundwater production and the conservation, preservation, protection, recharging, and prevention of waste of groundwater and control of subsidence in the management area. This subsection does not prohibit the establishment of desired future conditions that provide for the reasonable long-term management of groundwater resources consistent with the management goals under Section 36.1071(a). The desired future conditions proposed under Subsection(d) must be approved by a two-thirds vote of all the district representatives for distribution to the districts in the management area. A period of not less than 90 days for public comments begins on the day the proposed desired future conditions are mailed to the districts. During the public comment period and after posting notice as required by Section 36.063, each district shall hold a public hearing on any proposed desired future conditions relevant to that district. During the public comment period, the district shall make available in its office a copy of the proposed desired future

conditions and any supporting materials, such as the documentation of factors considered under Subsection (d) and groundwater availability model run results. After the close of the public comment period, the district shall compile for consideration at the next joint planning meeting a summary of relevant comments received, any suggested revisions to the proposed desired future conditions, and the basis for the revisions.

(d-3) After all the districts have submitted their district summaries, the district representatives shall reconvene to review the reports, consider any district's suggested revisions to the proposed desired future conditions, and finally adopt the desired future conditions for the management area. The desired future conditions must be approved by a resolution adopted by a two-thirds vote of all the district representatives not later than January 5, 2022. Subsequent desired future conditions must be proposed and finally adopted by the district representatives before the end of each successive five-year period after that date. The district representatives shall produce a desired future conditions explanatory report for the management area and submit to the development board and each district in the management area proof that notice was posted for the joint planning meeting, a copy of the resolution, and a copy of the explanatory report. The report must:

- (1) identify each desired future condition;
- (2) provide the policy and technical justifications for each desired future condition;
- (3) include documentation that the factors under Subsection (d) were considered by the districts and a discussion of how the adopted desired future conditions impact each factor;
- (4) list other desired future condition options considered, if any, and the reasons why those options were not adopted; and
- (5) discuss reasons why recommendations made by advisory committees and relevant public comments received by the

districts were or were not incorporated into the desired future conditions.

(d-4) After a district receives notification from the Texas Water Development Board that the desired future conditions resolution and explanatory report under Subsection (d-3) are administratively complete, the district shall adopt the applicable desired future conditions in the resolution and report.

(e) Except as provided by this section, a joint meeting under this section must be held in accordance with ~~Chapter~~ 551, Government Code. Each district shall comply with ~~Chapter~~ 552, Government Code. The district representatives may elect one district to be responsible for providing the notice of a joint meeting that this section would otherwise require of each district in the management area. Notice of a joint meeting must be provided at least 10 days before the date of the meeting by:

Sec. 36.063. NOTICE OF MEETINGS. (a) Except as provided by Subsections (b) and (c), notice of meetings of the board shall be given as set forth in the Open Meetings Act, ~~Chapter~~ 551, Government Code. Neither failure to provide notice of a regular meeting nor an insubstantial defect in notice of any meeting shall affect the validity of any action taken at the meeting.

(b) At least 10 days before a hearing under Section 36.108(d-2) or a meeting at which a district will adopt a desired future condition under Section 36.108(d-4), the board must post notice that includes:

- (1) the proposed desired future conditions and a list of any other agenda items;
- (2) the date, time, and location of the meeting or hearing;

(3) the name, telephone number, and address of the person to whom questions or requests for additional information may be submitted;

(4) the names of the other districts in the district's management area; and

(5) information on how the public may submit comments.

(c) Except as provided by Subsection (b), notice of a hearing described by Subsection (b) must be provided in the manner prescribed for a rulemaking hearing under Section [36.101\(d\)](#).

[36.101\(d\)](#) Not later than the 20th day before the date of a rulemaking hearing, the general manager or board shall:

(1) post notice in a place readily accessible to the public at the district office;

(2) provide notice to the county clerk of each county in the district;

(3) publish notice in one or more newspapers of general circulation in the county or counties in which the district is located;

(4) provide notice by mail, facsimile, or electronic mail to any person who has requested notice under Subsection (i); and

(5) make available a copy of all proposed rules at a place accessible to the public during normal business hours and, if the district has a website, post an electronic copy on a generally accessible Internet site.
