AgriLife Extension Office or GCD Office

Monday, May 20, 2024
8:00—10:00 a.m.

Educational Meeting

May 22, 2024
9:00 a.m.—1:00 p.m.
Brush Country GCD
732 West Rice
Falfurrias

TEXAS WELL OWNER NETWORK PROGRAM

The Texas Well Owner Network (TWON) program is a free, educational training for Texas residents who depend on household wells for their water needs. TWON is for private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water system and are responsible for ensuring that their water is safe.

BRING YOUR WELL WATER SAMPLES!

Well owners should bring water samples Monday, May 20 to be screened for nitrate–nitrogen, arsenic, total dissolved solids (TDS) and *E. coli* bacteria. Pick up approved sample containers with instructions at your local the County AgriLife Extension office or the Brush Country Groundwater Conservation District office in Falfurrias.

Drop samples at the same location where testing materials were picked up.

Samples are due on Monday, May 20 by 10:00 a.m.. There is no cost for this screening.

Pre-register for the workshop by calling
Joel Pigg: 979-321-5946 office,
830-275-3866 cell or
email at j-pigg@tamu.edu
